An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with C. Douglas McDonald on 9-10-03.

The application has been amended as follows:

In claim 1 line 2 after "rocks" – containing calcium carbonate to convert said calcium carbonate to calcium oxide, - has been inserted; in line 7 after "of" – calcined – has been inserted; and in line 12 "created" has been changed to – create -.

In claim 8 line 2 "step" has been changed to – act -.

The following is an examiner's statement of reasons for allowance: The primary reason for allowance of the claims is that the prior art of record fails to teach or suggest the recitation of the calcining or heating, crushing, and pH adjusting acts in combination with the flocculating and settling acts, as recited in the instant claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
